

Inclusion of a previously published paper

We regret to inform our readers that a recent paper published in *Paediatric and Perinatal Drug Therapy*: Ashkan MM, Narges P. The effect of low and moderate doses of clofibrate on serum bilirubin level in jaundiced term neonates. *Paed Perinat Drug Ther* 2007;8:51–54 has been published previously. [Ashkan MM, Narges P. Determination of effect of low dose versus moderate dose clofibrate on decreasing serum bilirubin in healthy term neonates. *Iran J Ped* 2007;17:108–112].

The inclusion of an already-published paper is not acceptable scientifically and it has now been removed from as many databases as possible. The editors of *Paediatric and Perinatal Drug Therapy* will not accept future articles from either of these authors.

The Editors
