

Special thanks

We would like to express our appreciation to the hard work done by our Production Managers, Richard Powell and Sara Nash. They have been responsible for ensuring that the journal is published, both in paper format and on line. Richard has been associated with the journal since 1998 and Sara since 2001.

We would like to thank all our reviewers for the last two volumes of Paediatric and Perinatal Drug Therapy. Without their support, the journal would not be possible. All articles are reviewed by at least two independent experts. Many thanks to all the people listed below and to anybody else who we have forgotten to mention.

Imti Choonara, Anthony J Nunn and Michael Rieder
